

# Embed SWF into PowerPoint

<p>Right click on the toolbar and go down to highlight the 'Control Toolbox'</p>	 <p>A screenshot of the PowerPoint application window. The title bar reads 'Microsoft PowerPoint - CIB pdf brewer Add-In'. The menu bar includes 'File', 'Edit', 'View', 'Format', 'Tools', 'Window', and 'Help'. The 'Tools' menu is open, showing options like 'Outlining', 'Picture', 'Reviewing', 'Tables and Borders', 'Visual Basic', 'Web', 'WordArt', 'Standard', 'Formatting', 'Animation Effects', 'Clipboard', 'Control Toolbox' (highlighted in blue), and 'Drawing'. A 'CIB pdf brewer Toolbar' is visible at the top left, with a 'Customize...' option.</p>
<p>Click the hammer And scroll down until you find 'Shockwave Flash Object'. Now drag out a square with this onto your Powerpoint.</p>	 <p>A screenshot of the 'Control Toolbox' in PowerPoint. The title bar reads 'Microsoft PowerPoint - CIB pdf brewer Add-In'. The menu bar includes 'File', 'Edit', 'View', 'Format', 'Tools', 'Window', and 'Help'.
